DETAILED ACTION

Claim Objections Withdrawn

The objection to claim 8, outlined in the previous Office Action, has been overcome by applicant's amendment and arguments. Applicant's amendment and arguments have been carefully considered and are persuasive. The examiner is now in agreement with applicant that the claim does add a further limitation.

112 Rejections Withdrawn

The rejection of claims 1-5, 7 and 9 under 35 USC 112, second paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment and arguments. Applicant's amendment and arguments have been carefully considered and are persuasive.

The amendment cancels claims 7 and 9.

With respect to claims 1 and 2, applicant's narrowing of the independent claim such that the catalyst must explicitly possess an increased activity, coupled with a carefully consideration of the instant examples, renders the rejection untenable. The examiner is now in agreement with applicant that the claims are no longer indefinite.

With respect to claims 3-5, rejected as also indefinite because they depended from an indefinite claim, the rejection is now moot.

103 Rejections Withdrawn

The rejection of claims 1-3 and 5 under 35 USC 103(a), outlined in the previous Office Action, has been overcome by applicant's amendment and arguments. Applicant's amendment and arguments have been carefully considered and are persuasive. Applicant's narrowing of the independent claim such that the catalyst must explicitly possess an increased activity, coupled with a careful consideration of the instant examples, renders the rejection untenable. This is particularly true in light of applicant's cogent argument that the cited reference, in fact, teaches away from the instant catalyst.

Allowable Subject Matter

Claims 1-6, 8 and 10-15 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art remains the prior art of record. The instant claims distinguish over that art for the reasons cited above. The cited prior art neither teaches nor suggests the instant process. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the process of the prior art in order to arrive at that of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
